## NOTES TO FINANCIAL STATEMENT

---

### 1. Nature of business

Far Hills Group, LLC (the "Company") is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and the Commodity Futures Trading Commission ("CFTC"). The Company is a member of the Financial Industry Regulatory Authority ("FINRA"), an entity created through the consolidation of the National Association of Securities Dealers, Inc. ("NASD") and the member regulation, enforcement and arbitration functions of the New York Stock Exchange. The Company is a member of the National Futures Association ("NFA"). The Company is qualified under the International Dealer Exemption and is permitted to engage in activities in Canada.

The Company introduces investors to various investment partnerships, non-U.S. funds and managed accounts. ### 2. Summary of significant accounting policies (continued)

#### *Revenue Recognition*

Revenue from contracts with customers include fees earned from investment managers for introducing perspective investors to the investment manager who purchase interests in the investment vehicles managed by the investment manager. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgement is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; and whether constraints on variable consideration should be applied due to uncertain future events.

The Company enters into contracts with investment managers of investment vehicles and managed accounts to introduce perspective investors to the investment vehicles that are managed by the investment manager. The Company earns fees based on a contracted percentage of the investment managers' commitments, management fees and/or performance incentive allocations, as received or allocated, for as long as such managers receive fees or allocations from investors that were introduced by the Company. The Company believes that its performance obligation occurs when the investor purchases interests in the investment vehicle as such this is fulfilled on the date the sale is completed. Any fixed amounts are recognized on the date the sale is completed and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe that it can overcome this constraint until the market value of the fund and the investor activities are known, which are usually monthly or quarterly. Fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

#### *New Accounting Guidance*

Effective January 1, 2019, the company will adopt the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 842, *Leases*. The amended guidance requires balance sheet recognition of lease right-of-use (ROU) assets and liabilities by lessees for leases classified as operating leases, with an option to not recognize lease ROU assets and lease liabilities for leases with an initial term of 12 months or less. The amendment also requires new disclosures providing additional qualitative and quantitative information about the amount recorded in the financial statements. Lessor accounting is largely unchanged. ASC Topic 842 is effective for the Company's fiscal year beginning January 1, 2019. Early adoption is permitted, but the Company has not made the election to do so. The Company plans to adopt ASC Topic 842 using the modified retrospective approach with the cumulative effect of adoption recognized to retained earnings on January 1, 2019.

The Company completed its implementation analysis of the Company's lease contracts and the impact the standard may have on its financial statements. The Company has evaluated the new guidance and the adoption will have a material impact on the Company's statement of financial condition due to the requirement to recognize lease ROU assets and corresponding liabilities related to leases on the Company's Statement of Financial Condition, however is not anticipated to have a material impact on the Company's Statement of Income.

### 2. Summary of significant accounting policies (continued)

#### *Fees Receivable and Allowance for Doubtful Accounts*

Fees receivable is an estimate based on information provided by the fund managers. Any differences between the actual amounts received in a subsequent period and the amounts recorded as a receivable at the end of the prior period are recorded as an adjustment to revenue in the subsequent period. The Company considers all fees receivable at December 31, 2018 to be collectible and no allowance for doubtful accounts is deemed necessary at December 31, 2018.

#### *Commissions Payable*

Commissions payable, which is included with accounts payable and accrued expenses in the statement of financial condition, is an estimate based on management and performance fees earned but not received. Any differences between the actual amounts paid in a subsequent period and the amounts recorded as commission payable at the end of the prior period are recorded as an adjustment to expenses in the subsequent period. The Company expects to disburse all commissions payable when fees are received from the fund managers.

#### *Income Taxes*

The Company is a Limited Liability Company and has elected to be treated as a partnership for federal and state income tax purposes and, accordingly, there is no provision for federal and state income taxes as the individual members report their share of the Company's income or loss on their personal income tax returns. The Company is subject to New York City Unincorporated Business Tax.

The Company follows an asset and liability approach for financial accounting and reporting for New York City Unincorporated Business Tax. Deferred income tax assets and liabilities are computed for the difference between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

The determination of the Company's provision for income taxes requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. Significant judgment is required in assessing the timing and amounts of deductible and taxable items and the probability of sustaining uncertain tax positions. The benefits of uncertain tax positions are recorded in the Company's financial statements only after determining a more likely than not probability that the uncertain tax positions will withstand challenge, if any, from tax authorities. When facts and circumstances change, the Company reassesses these probabilities and records any changes in the financial statement as appropriate.

In accordance with GAAP, the Company is required to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. At December 31, 2018, management has determined that the Company had no uncertain tax positions that would require financial statement recognition. The Company's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof.

### 2. Summary of significant accounting policies (continued)

The Company's files its income tax returns in the U.S. federal and various state and local jurisdictions. Any potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with U.S. federal, state and local tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

#### *Use of Estimates*

The preparation of a statement of financial condition in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the amounts disclosed in the financial statement. Actual results could differ from those estimates.

#### *Fair Value of Financial Instruments*

At December 31, 2018, the carrying value of the Company's assets and liabilities, which qualify as financial instruments in accordance with US GAAP, such as fees receivable, approximate fair value due to their short nature.
